Mr Mark Symes – G Schneider Australia
Mr John McGrath – Nutrien Ag Solutions

Mark Symes - It is great to see such support after 20+ years of the competition starting. I had the pleasure of being a judge in the first competition and it is great to see that the interest has increased over this time frame.

The quality of the exhibits was outstanding and the time, effort and dedication put into preparing the fleeces is a credit to all exhibitors. I have seen some changes in the last 20+ years, but the most significant change has been science. The collaboration between scientific measurement, coupled with a wealth of experience has definitely made the wool industry interesting. While science is the engine that drives us today, experience is still holding the steering wheel.

If we invest in our youth to support, educate and collaborate with them, we have a great future.

John McGrath - In the past twelve months, since the previous Australian Fleece Competition growing conditions have been challenging in many wool producing areas. The quality of the fleeces on display is a real credit to the exhibitors, the depth of quality was most impressive. It is fantastic to see many excellent fleeces on display from right across the country. Particular mention is to be made of the brightness and cleanliness of the fleeces.

The entries in the stud sections are of a very high standard and the commercial fleeces are among some of the best that have been entered over the past 22 years of the competition. The eventual champion fleeces were standouts in their classes and in the ultimate final selection.

Some exhibits could have benefited from more care being taken in their preparation, with a stronger focus on skirting and checking for any faults. Any lack of attention to detail in the preparation of fleeces presented proved costly in the final score and ranking.

The judges would like to congratulate all growers who entered fleeces in the Australian Fleece Competition.

ACKNOWLEDGEMENTS
